CONGRATULATIONS TO THE REGIONAL ANTI-DOPING ORGANIZATION

The Antigua and Barbuda NOC joins with other regional stakeholders to congratulate the Regional Anti-Doping Organization (RADO) on 15 years of existence and excellent work in keeping regional sports globally relevant.

The work the RADO epitomizes and reflects the exceptional high standards of our athletes and of our region in general. The comparatively low rate of drug use among our athletes is testament to our penchant for fair and clean competition and our commitment to global standards.

I applaud the leadership of our RADO and implore you to continue in your representation of our Caribbean civilization to the satisfaction and delight of all of our people. I encourage you to increase the educational component of your work for sustained conversance of the subject among future generations.

Congratulations on your 15th anniversary and wishes for many more successful years.

Respectfully

Hon. E.P. Chet Greene MP
President
Antigua and Barbuda National
Olympic Committee
